International HIV Assistance: Funding Channels for Donor Government Disbursements (USD), 2014

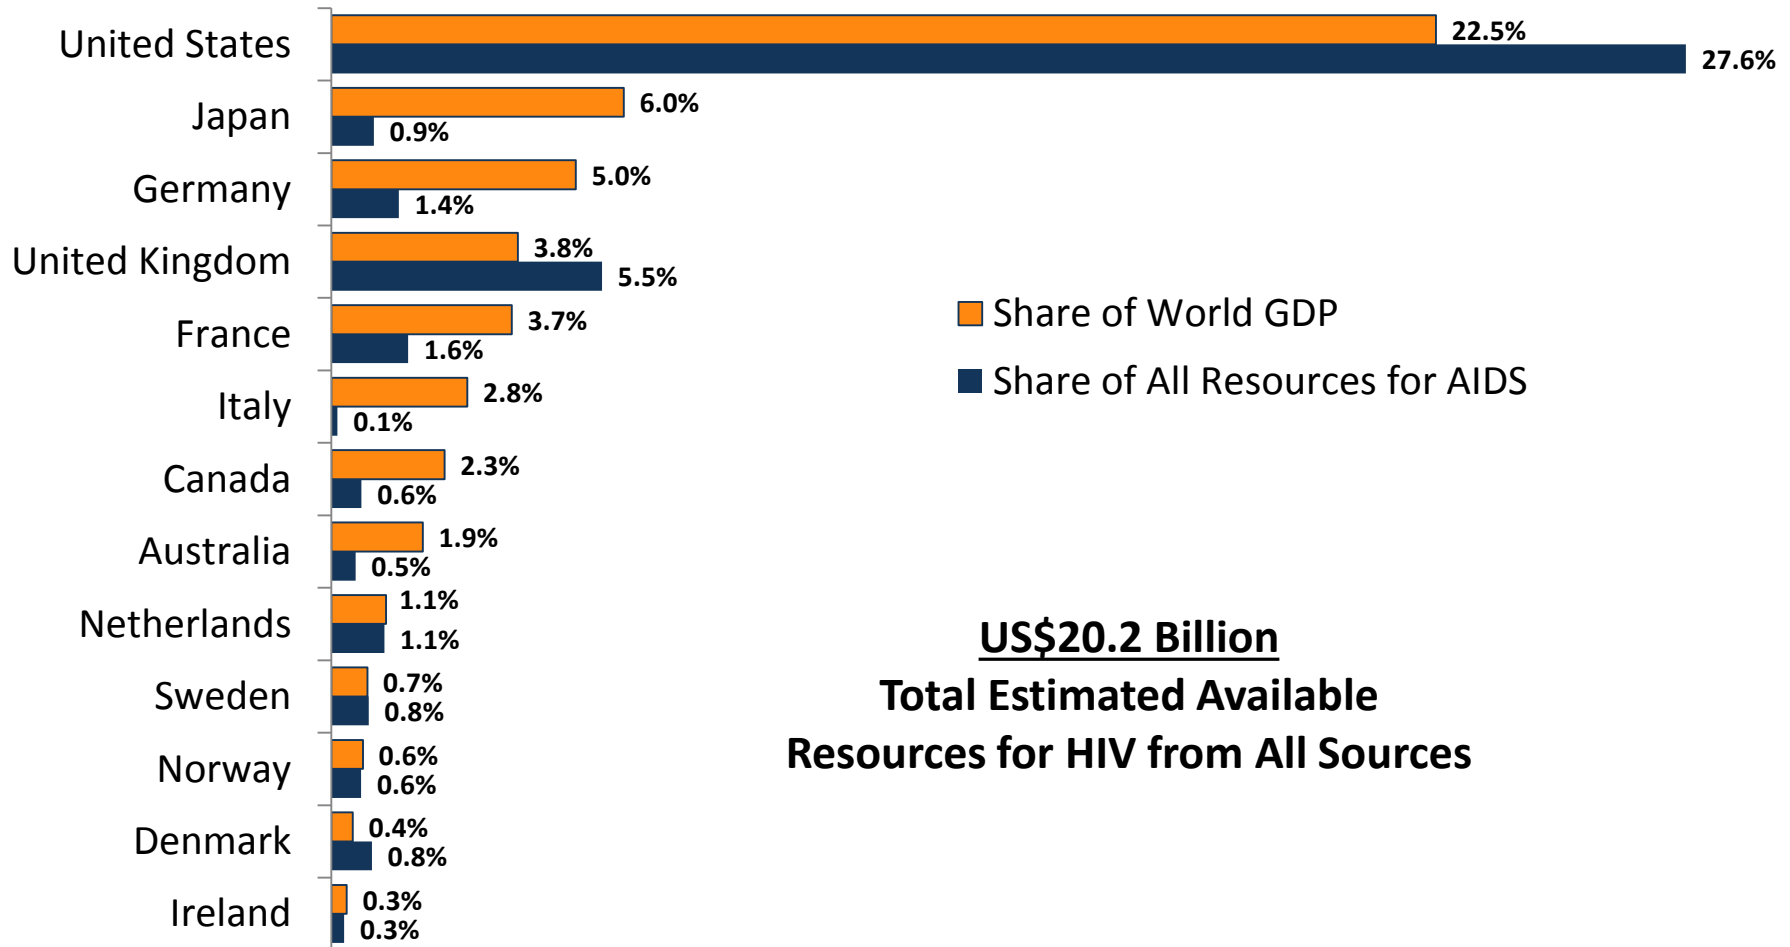

Trends in International HIV Assistance from Donor Governments: Multilateral & Bilateral Funding, 2011-2014

USD millions

■ Multilateral
■ Bilateral

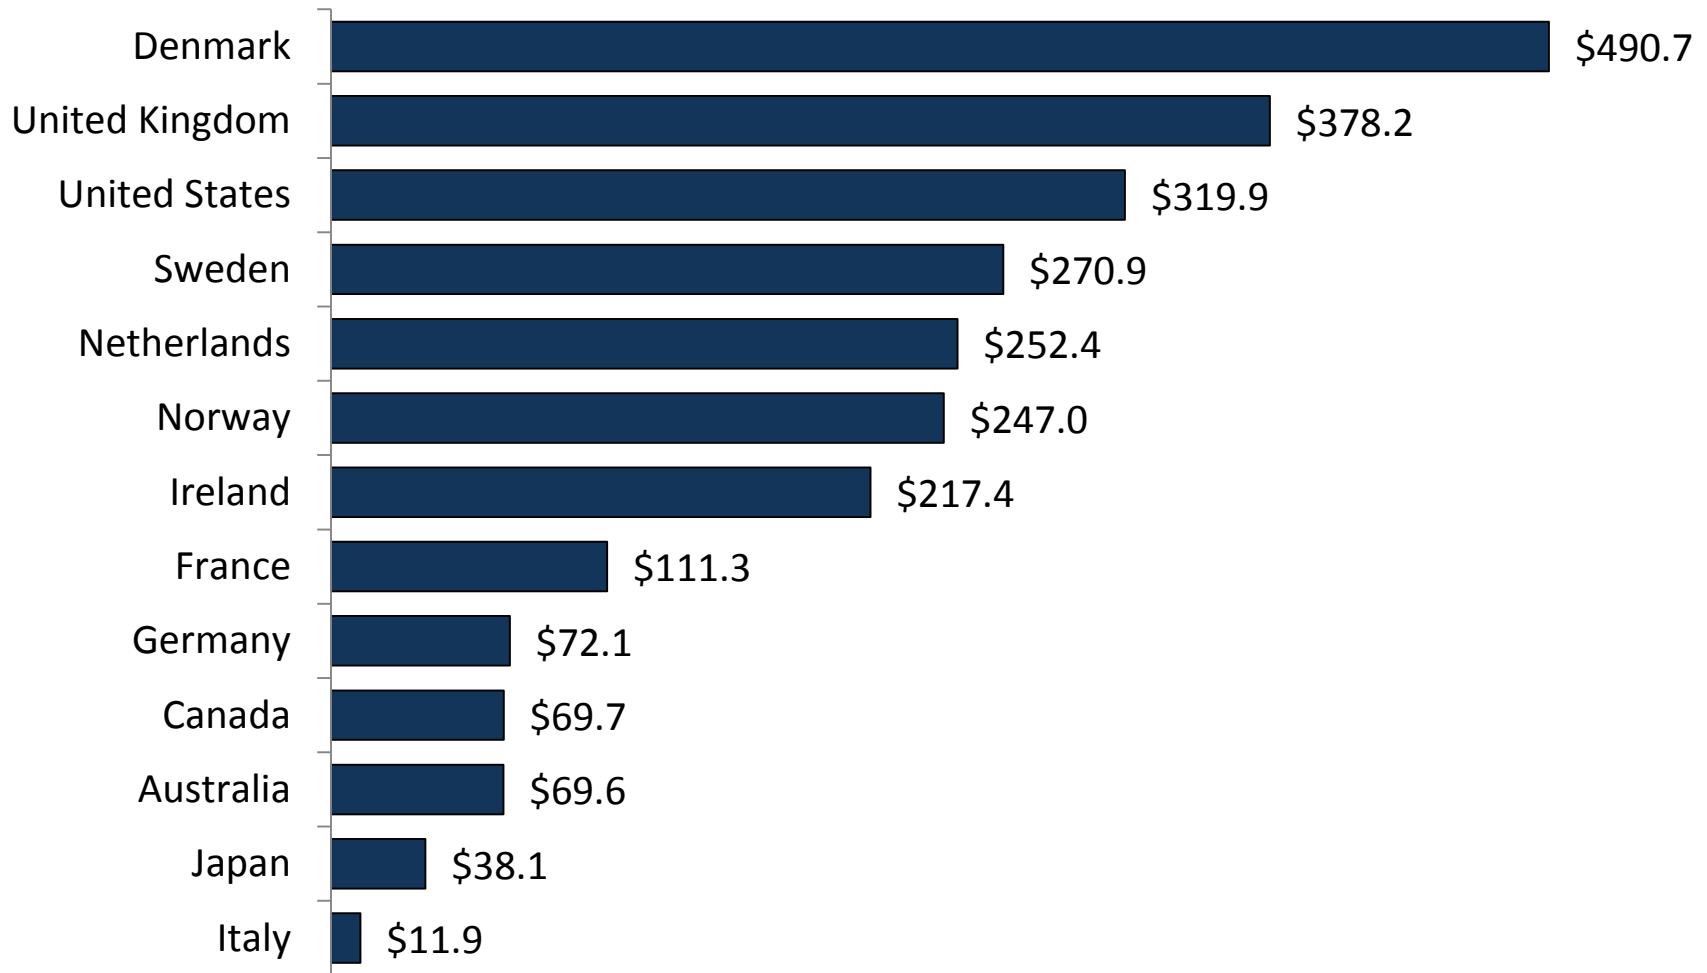

Assessing Fair Share 1: Donor Share of World GDP* Compared to Donor Share of All Resources Available for HIV, 2014

*GDP = gross domestic product.

NOTE: UNAIDS estimate of resources available for HIV/AIDS from all sources, June 2015. This estimate includes domestic expenditures (public and private) for all low- and middle- income countries, including countries that transitioned into high income level, according to World Bank 2013 country classification of income status.

Assessing Fair Share 2: Donor Rank by Disbursements for HIV per US\$1 Million GDP*, 2014

*GDP = gross domestic product.
